You will be excited to find this stunner built by Classic Stellar Homes nestled atop the hillside, backing up to the Preserve at Shadow Mountain and only steps away from great hiking and biking trails. You will be greeted with a grand entrance through an oversized door into the formal living room and dining room. So much open space with soaring 25' ceilings and tall windows that open and close by remote at the top. Sit by the fireplace and soak in the views of the backyard pool and spa. Open kitchen with large island, breakfast bar, granite tops, dual ovens, ss appliances, and built-in desk overlooking the family room. Oversized lot provides lots of space for the grassy side yards, covered patio, built-in bbq grill, pool and spa, and lush professional landscaping. Retreat upstairs to the spacious master suite with private balcony providing you with both city lights and mountain views. His and her vanities, walk-in closets, a glass-enclosed walk-in tiled shower, and a separate jetted tub. Open loft overlooking the formal living and dining room. 2 bedrooms upstairs exit to an adjoining deck with more mountain and city views.
